2011 WEBSITE UPDATES PRICING GUIDE

After the website has been set up and has gone live, there are costs for any additional updates you may require. Please look at the following pricing guide below:

We can often work out an updating solution for pages like 'latest news' where the client can update the page themselves, saving on costs and time.

As this is a guide some prices may vary depending on the client's needs. An individual quote can be given on request. Please email with any queries.

Update	Details	Price
Small text/graphic update	On no more than three pages of the website.	£15
Medium text/graphic update	On four to ten pages of the website.	£25
Large text/graphic update	On eleven or more pages of the website.	£45
Add a page	Add a completely new page to the website with relevant text/pictures to the website.	£40
Delete a page	Remove a page from the website. The page will be stored for a further year in case you wish to re-upload it.	£20
Major Overhaul	Depending on nature of update prices will vary. This can include large section updates, additions of side features such as blogs, photo galleries and forums, or large graphic changes.	£50 - £200

Please note: This is priced *per month* – you will be billed at the end of each month with the total charge due on completion of all updates requested. You can send update requests at *any point* in the month.

You must pay for each month's updates within *seven days* of receiving your invoice. If you don't complete payment the website will be switched temporarily offline, until costs are received.
